

## **In God We Harvest Life Group Questions**

**Warm Up:** If you are at a friend's or relative's house and you found a hair in the food on your plate, what would you do?

1. Throughout the Bible we are taught the principle of sowing and reaping, that is, what one plants is what they will eventually harvest. The passage that best describes this principle is Galatians 6:7-9. Please read that passage. Sowing and harvesting are ongoing in our lives. Each day we are sowing for the future and each day we are harvesting what we planted in the past. Name one good thing you are currently harvesting in your life because you planted it in the past. Did you plant that in the past with the harvest in mind? Explain.

2. The following verses all speak to the principle of sowing and harvesting. Read each verse and discuss how the process of sowing and harvesting is impacted by the truth of that verse. Explain how each verse helps you understand sowing and harvesting in your own life. If possible, share a specific example of the principle from your own life. (Hint: The verses are in the order they were shared in the sermon.)

- Genesis 1:11 and Zechariah 4:10a
- John 12:24
- Galatians 6:7
- John 4:38
- Ecclesiastes 3:1-5
- Mark 4:8
- 2 Corinthians 9:6-7
- Ecclesiastes 11:4 and 2 Corinthians 9:10-11a
- Mark 4:26-28 and Galatians 6:9

3. What would you like to experience more of in the future: (circle two)

Encouragement	Healthy Relationships	Financial Peace
Help from Others	Closeness to Christ	Joy
Less Worry	Victory over sin	Vibrant Church
Faith	Courage to Share Christ	Other: _____

4. What are you willing to start planting today to harvest more of what you circled in question #3? (Be specific)
